

Dear Parents,

Well, we are in the home stretch. Where did this year go? We are excited for our seniors as they complete their last quarter here at The Valley. They have been so wonderful and we will miss them all so much. Here are a couple of items for your knowledge and action:

- 1) BUS RIDERS - there will be no bus service this Friday, March 26th - you will need to provide alternate transportation for your students.
- 2) Re-enrollment forms need to be turned into the office along with registration fees for the 2010-2011 school year. If you are a freshmen, sophomore, or junior make sure you turn these in to the office for our schedule planning.
- 3) There are a few more slots to work at Farm Technology Days in the summer of 2011. The Valley could earn \$10,000-\$15,000 by working the food tents there. If you are interested in working this fun event, feel free to call Deb Lange at 446-2791.
- 4) It is always a tendency to become complacent the last quarter of the year. Parents, encourage your teens to get their homework done and get some sleep so that they are finishing strong.
- 5) Thank you so much to all of you who attended, donated to, worked at our Spring Fling this year. It was profitable for our school and a blast for all who attended! What a great way to celebrate!
- 6) Please see the attached flyer on a second Focus On College Funding night that will be held on our campus on April 22nd. These are great information gathering sessions put on by Thrivent Financial whatever the age of your student.

God's blessings for a wonderful and restful Spring Break!!
